During our training we focused on positive guidance strategies, effective communication techniques, and classroom management styles; all skills that assist our teaching staff in providing the best possible experience and quality care for our students and their families. We couldn't do it without you!

Colorado Shines

As most of you know, we participate in a quality initiative program called Colorado Shines. We are currently rated a level 2, and are in the process of applying for a level 3-5. So, what does that mean? It means that there will be some minor changes to the environment in the classroom, including room arrangement and curriculum implementation. This will bring more quality to your child's experience and education. We will provide you with more information in the coming months. If you have any questions, please feel free to discuss with your child's teacher, or a member of the office management team.
